

# North Campus Incubator (NCI)

Project part-financed by the European  
Union, European Regional Development  
Fund (ERDF)

The North Campus Incubator is located in the heart of the city. This prime position is within 5 minutes walking distance from Piccadilly Railway Station. NCI is designed to accommodate technology based SMEs and The University of Manchester start-ups.

The aim of the NCI is to simplify the start-up phase of new ventures and integrate them with other like minded companies, all within a professional and friendly office environment which includes access to the following:

- Fully serviced modern office accommodation including water coolers, kitchen facilities, tenant desk packages and recycling facilities
- Meeting room, photocopying, fax & mail delivery facilities
- Preferential rates to first class conferencing and workshop facilities across UMIC managed sites
- Access to a wide range of business support services (legal, intellectual property, investors, specialist training and seminars)
- Secure internet connection and support
- Discounted city centre parking
- Proximity to public transport services and city centre hotel accommodation
- Access to full range of University catering services

#### What our tenants say...

##### *Mohammed Chaudhury of Spartapay says:*

"This iconic structure makes it an ideal facility for Spartapay to develop and progress its ideas and innovation into new products. Its central position enabled us to easily establish research and technology transfer collaboration with The University. To date UMIC have helped us secure a SMART R&D award, recruit a PhD to develop future product strategy for us through a science council funded CASE award and link us up with a number of potential funders and sources of contracts."
